MM Fine Art is proud to present 'SEVENTEEN', a photography exhibition by Joey Farrell. The series captures fleeting moments in his adolescence in a compelling way. Farrell is a local Hamptons artist born and raised in Southampton. He is currently a rising senior at High School of St. Anthony's here in New York with aspirations to explore and sharpen his photographic skills at university next fall.

Farrell is most passionate about portraiture and feels that 'a physical action or expression is the most unique type of moment one can capture. If done effectively, it's an amazing thing.' While MM Fine Art is better known for exhibiting the work of established and blue-chip artists, the gallery jumped at the opportunity to show the work of an emerging young talent with such immense potential.

We hope you will join us for the opening reception of SEVENTEEN on Friday, August 17, from 6 to 8 PM. For additional images or further information please contact Catherine McCormick, Catherine@mmfineart.com or 631.259.2274.
